HOW TO READ YOUR REPORT

How to get the most from your report

ABOUT YOUR REPORT

The Teaching and Learning Conditions in Colorado (TLCC) Survey – formerly TELL Colorado survey - is a statewide survey of school-based staff (teachers and building leadership) on their perceptions of the teaching and learning conditions in their schools. Questions were asked about instructional support, professional development, managing student conduct, use of time, leadership, facilities and resources, family and community support, and future plans. Demographic questions were limited to ensure participant anonymity.

The TLCC results give you a powerful tool for understanding teachers and leaders' experience in their classrooms and schools. These results may confirm some of what you already know about classrooms and schools, may surprise you with details that you didn't know, and most likely will open up new questions about areas you want to explore further.

SURVEY DESIGN

The survey is led by the Colorado Department of Education (CDE) and operated through a statewide collaborative that includes the Colorado Association of School Boards, Colorado Association of School Executives, Colorado Education Association, Colorado Education Initiative, Colorado League of Charter Schools, Colorado Rural Alliance and representatives from school districts, universities and researchers. APA Consulting developed the TLCC survey by working closely with the partner organizations, districts and educators in the field. Cambridge Education administered the inaugural launch the survey in January 2018.

SCORING AND REFERENCE DATA

After responding to demographic questions, educators indicated one of four response options for each item on the survey. Scores in this report are percentages based on the proportion of students who replied "Agree" or "Strongly Agree." Responses to "I don't Know" do not affect favorability ratings. You can see a full breakdown of how all educators responded in the "Results" section.

Items on the TLCC have varying levels of meaning by design, so it is not as easy as simply looking at the highest and lowest items to identify strengths and areas of improvement. When examining a school's results, you should think carefully about the priorities of your school(s) and departments, and then identify relative strengths and weaknesses across teachers and schools.

USE OF CHARTS & LEGENDS

DEMOGRAPHICS

Who took the survey?

The following graphics display how those who took the survey responded to the demographic questions which were included. This page allows you to understand the attributes of the survey respondents.

240 total respondents

What is your current position at the school?

How many years have you worked at your present school in this position/role?

How many years have you worked in your career in this position/role?
